Note B -In previous years/periods, the Company had not accounted the depreciation impact on certain leasehold land (right of use assets), presented under Property Plant and Equipment in accordance with Ind AS 116. The Company has now recognised the depreciation impact and adjusted the net carrying value of property, plant and equipment balance with corresponding impact to retained earnings as at 1 April 2025 and to 'depreciation and amortisation expense' line item of the respective periods presented in the standalone financial results.

Note C -During the year ended 31 March 2026, the Company had incorrectly accrued the interest income on loans given to subsidiaries. It has now been corrected and the Company has recognised additional interest income in the respective periods presented in the standalone financial results with corresponding impact on interest accrued classified under other current financial assets.

Note D -In previous years/periods, the Company had inadvertently recognized revenue for certain sales transactions for which the transfer of control to customers was not completed as at the respective reporting date. Accordingly, revenue, trade receivables, inventory, and cost of material consumed (COMC) have been reversed in the respective periods presented in the standalone financial results with consequential impact on retained earnings as at 1 April 2025 and profit/loss of respective periods presented in the standalone financial results. Further, now such revenue and COMC have been recognised in the correct periods with corresponding impact to trade receivable and inventory.

Note E -In previous years/periods, inventory balance was overstated due to excess overheads being inadvertently capitalized. Accordingly, the excess overheads recognized in inventory have now been reversed, with a corresponding adjustments to retained earnings as at 1 April 2025 and COMC line item of the respective periods presented in the standalone financial results.

Note F -During the year ended 31 March 2026, the Company had not recognized provision against certain inventory items identified as slow-moving and non-moving items, which have now been recognised appropriately with a charge to COGS line item of the respective periods presented in the standalone financial results with corresponding impact to inventory.

Note G -During the year ended 31 March 2026, the Company had not recognized adequate expected credit loss (ECL) provision against certain trade receivable which has now been recognised appropriately with a charge to other expenses line item of the respective periods presented in the standalone financial results with corresponding impact to trade receivable.

Note H- In previous years/periods, the Company had inadvertently recognized erstwhile IPO and QIP related expenses under prepaid expenses with corresponding credit to other current liabilities which has resulted in overstatement of prepaid expense and other current liabilities balance. Further, some of the prepaid expenses were in the nature of share issue expense, however, the same were not adjusted with the securities premium account. It has now been corrected by crediting prepaid expenses with corresponding debit to other current liabilities and securities premium as at 1 April 2025 and 31 March 2026.

Note I - During the year ended 31 March 2026 and quarter ended 30 June 2026, the Company had erroneously classified purchase of traded goods under cost of material consumed, instead of presenting it separately on the face of statement of profit and loss, which has now been corrected and the respective periods presented in the standalone financial results have accordingly been restated.

Note J- During the year ended 31 March 2026, the Company had made payment of GST demand to GST department pursuant to completion of GST audit, which was erroneously classified under Balance with government authorities instead of charging it to statement of profit and loss account, which has now been corrected and the other expense amount presented under FY 26 column in the standalone financial results has accordingly been restated.

Note K - The Company has erroneously written back the provision relating to employee incentives payables during the quarter ended 30 June 2026, which has now been reversed with adjustment to employee incentive payables and corresponding impact on employee benefit expense line item presented in June 2026 quarter column in the standalone financial results.

Note L - In previous years/periods, the management had accounted for investment in equity shares of investee company inadvertently as financial assets at amortised cost, even though significant influence being exercised by the Company over such investee company from the date of acquisition. Such investment should have been accounted for as an investment in associate at cost in accordance with Ind AS 28, which has now been corrected.

Note M - The consequent tax impact of the aforesaid restatements has been recorded in retained earnings as at 1 April 2025 and tax expense of the respective periods presented in the standalone financial results with corresponding adjustments to deferred tax and current tax assets/liability, as applicable.

Note B -
In previous years/periods, the Group had recognised an intangible asset (manufacturing rights) and inadvertently presented the same under property plant and equipment and also had not recognised any amortisation on such intangible asset. It has now been corrected by reclassifying it from PPE to Intangible Assets and the Group has now recorded amortisation expense on it, which has impacted retained earnings as at 1 April 2025 and 'depreciation and amortisation expense' line item of the respective periods presented in the consolidated financial results.

Note C -In previous years/periods, the management had erroneously computated foreign currency exchange differences and non-controlling interests (NCI) balance pertaining to certain subsidiaries, which has now been corrected resulting in adjustment to these FSLI as at 1 April 2025 and 31 March 2026 with corresponding impact on retained earnings as at 1 April 2025 and other comprehensive income of respective periods presented in the financial results.
Also, in the previous years, Goodwill pertaining to one subsidiary was overstated due to incorrect amount allocated to NCI balance, which has now been corrected by adjusting goodwill with corresponding impact on NCI as at 1 April 2025 and 31 March 2026.

Note D- In previous years/periods, the Group had recognized capital reserve arising from the acquisition of a subsidiary which was incorrectly adjusted against goodwill arising from acquisition of certain other subsidiaries, which has resulted in understatement of capital reserve and goodwill. It has now been corrected and the amounts of goodwill and the capital reserve as at 1 April 2025 and 31 March 2026 has been restated accordingly.

Note E-In previous years/periods, the management had accounted for investment in an investee company inadvertently as financial asset at amortised cost, even though significant influence being exercised by the Group over such investee company from the date of acquisition. Such investment should have been accounted for as an Investment in associate using the equity method of accounting in accordance with Ind AS 28. It has now been corrected retrospectively, and the equity pickup has been done based on their interim/annual financial results/statements, with a quarter lag, as permitted under Ind AS 28. Further, subsequent funding during the year ended 31 Mar 2026 in the investee company by external investors has resulted in dilution in Group's stake with retained interest continues to be an associate, accordingly, the Group has recorded dilution gain on deemed disposal of partial stake in accordance with Ind AS 28. As a result, the Group has corrected the classification of investment in such associate from other non-current financial assets to a separate line item on the face of Balance Sheet and taken the impact to retained earnings as at 1 April 2025, share of profit/loss from associate and other income in the respective periods presented in the consolidated financial results to correct the accounting in accordance with Ind AS 28. Also, the same shall be required to be disclosed as Investment at cost.

Note F: The Group has reclassified trade receivable expected to be realised beyond twelve months from the reporting date as at 31 March 2025 and 31 March 2026

Note G -In previous years/periods, with respect to a revenue contract, the Group had capitalized cost incurred under the head "Property, Plant and Equipment (PPE)" and recognised depreciation on it and the monthly payments received as per the terms the agreement was recognized as rental income. In the current quarter, management reassessed the accounting treatment and concluded that the contract falls within the scope of Service Concession Arrangements (SCA) under Appendix D of Ind AS 115. As a result, the previously recorded PPE is derecognized and corresponding depreciation impact has now been reversed and accounting is corrected as per revised assessment, which has impacted retained earnings as at 1 April 2025, PPE and receivable under SCA balance as at 1 April 2025 and 31 March 2026 and finance income, revenue from operation, depreciation and cost of goods sold of respective periods presented in the consolidated financial results.

Note H : The consequent tax impact of the aforesaid restatements has been recorded in retained earnings as at 1 April 2025 and tax expense of the respective periods presented in the consolidated financial results with corresponding adjustments to deferred tax and current tax assets/liability, as applicable

Note I:
In previous years/periods, inventory balance was overstated due to excess overheads being inadvertently capitalized. Accordingly, the excess overheads recognized in inventory have now been reversed, with corresponding adjustments to retained earnings as at 1 April 2025 and COMC line item of the respective periods presented in the consolidated financial results.

Note J: In previous years/periods, the Group had inadvertently recognized revenue for certain sale transactions for which the transfer of control to customers was not completed as at the respective reporting date. Accordingly, revenue, trade receivables, inventory and cost of material consumed (COMC) have been reversed in the respective periods presented in the consolidated financial results with consequential impact on retained earnings as at 1 April 2025 and profit/loss of respective periods presented in the consolidated financial results. Further, now such revenue and COMC have been recognised in the correct periods with corresponding impact to trade receivable and inventory.

Note K: During the year ended 31 March 2026, the Group had not recognized provision against certain inventory items identified as slow-moving and non-moving items, which have now been recognised appropriately with a charge to COGS line item of the respective periods presented in the consolidated financial results with corresponding impact to inventory.

Note: L During the year ended 31 March 2026, the Company had made payment of GST demand to GST department pursuant to completion of GST audit, which was erroneously classified under Balance with government authorities instead of charging it to statement of profit and loss account, which has now been corrected and the other expense amount presented under FY 26 column in the standalone financial results has accordingly been restated.

Note M: During the year ended 31 March 2026, the Group had erroneously recognised certain acquisition related cost under prepaid expenses which should have been charged to Statement of profit and loss. It has now been corrected by reversal of such prepaid expense with corresponding impact to 'other expenses' line item in the respective periods presented in the consolidated financial results.

Note N: In previous years/periods, the Group had inadvertently recognized erstwhile IPO and QIP related expenses under prepaid expenses with corresponding credit to other current liabilities which has resulted in overstatement of prepaid expense and other current liabilities balance. Further, some of the prepaid expenses were in the nature of share issue expense, however, the same were not adjusted with the securities premium account. It has now been corrected by crediting prepaid expenses with corresponding debit to other current liabilities and securities premium as at 1 April 2025 and 31 March 2026.

Note O:In previous years/periods, the Group had not accounted the depreciation impact on certain leasehold land (right of use assets), presented under Property Plant and Equipment in accordance with Ind AS 116. The Group has now recognised the depreciation impact and adjusted the net carrying amount of property, plant and equipment balance with corresponding impact to retained earnings as at 1 April 2025 and to 'depreciation and amortisation expense' line item of the respective periods presented in the consolidated financial results.

Note P: In previous years/periods, the Group had acquired certain foreign subsidiaries and recognised customer contracts (identified intangible assets) and goodwill in accordance with Ind AS 103. However, exchange differences arising on the translation of such goodwill and customer contracts were not recorded in the consolidated financial results, in accordance with Ind AS 21, which has now been corrected by adjusting intangible assets and goodwill with corresponding impact to foreign currency translation reserve as at 1 April 2025 and as at 31 March 2026 and the other comprehensive income of respective periods presented in the consolidated financial results.

Note Q: The Group assessed that for one of the business acquisitions made during the year ended 31 March 2026, on account of incorrect working capital settlement adjustment applied to purchase consideration, excess deferred consideration payable was recorded which has consequently resulted in overstatement of goodwill. Accordingly, the same has now been corrected to reflect the correct contractual obligation of deferred consideration with a corresponding adjustment to Goodwill initially recognised.

Note R: During the year ended 31 March 2026, the Group had not eliminated the interest income with the finance cost with respect to loans given by Holding Company to subsidiaries, which has now been corrected by eliminating it with consequential impact on other income and finance cost line items in the respective periods presented in the consolidated financial results.

Note S: During the year ended 31 March 2026 and quarter ended 30 June 2026, the Group had erroneously classified purchase of traded goods in cost of raw material consumed, instead of presenting it separately on the face of statement of profit and loss, which has now been corrected and the respective periods presented in the financial results have accordingly been restated.

Note T:
The Company has erroneously written back the provision relating to employee incentives payables during the quarter ended 30 June 2026, which has now been reversed with adjustment to employee incentive payables and corresponding impact on employee benefit expense line item presented in June 2026 quarter column in the standalone financial results.

Note U:During the year ended 31 March 2026, the Group had not recognised the 'Right of use' Asset for property taken on lease by one of the subsidiary and recorded the lease rental expenses directly to statement of profit and loss account, which has now been corrected by recognizing Right of use asset and corresponding lease liability along with subsequent measurement impact on these in accordance with the requirement of Ind AS 116 and reversed the accounting treatment given earlier. As a result, adjustments are made to PPE (ROU) and lease liability with corresponding impact on 'depreciation and amortisation expense', 'finance cost' and 'other expense' line items in the respective periods presented in the consolidated financial results.
