FRENCH GIANT IN COURT AGAIN FOR RESTORATION OF LICENCE

# Delhi business 'hopelessly fettered': Pernod in court

ADITYA KALRA & ARPAN CHATURVEDI  
New Delhi, May 13

**FRENCH GIANT PERNOD** Ricard has said its business in the capital 'has been hopelessly fettered' for three years as regulators seek to strike down a fresh court challenge against rejection of its city liquor licence, documents show.

Pernod, which counts India as its biggest market globally by volume, has been unsuccessfully pleading with authorities since 2023 to restore its Delhi city liquor licence. The city typically used to account for about 5% of Pernod's country-wide sales, which stood at \$2.86 billion in the year ending March 2025.

Court papers show the company saying the ban in Delhi means 'three decades of its bona fide conduct and operations across India have been washed away.'

"Business in the national capital territory of Delhi has been hopelessly fettered."

Officials have rejected the pleas citing 'serious' allegations levelled by the authorities that Pernod colluded with retailers in Delhi to illegally

boost its market share in 2021. Pernod has denied any wrongdoing but the ban means tippers in the city of more than 20 million have remained without access to its popular brands like Chivas Regal, Absolut Vodka and Glenlivet.

The latest setback came in February, when authorities rejected Pernod's plea for a fourth time, citing ongoing investigations, prompting the French company to mount a new court challenge at the Delhi High Court in March to

overturn the prohibition - details Reuters is reporting for the first time.

The court is scheduled to hear the case on Thursday.

The Delhi government is again pushing back to block Pernod, citing public interest, according to a court filing on April 30, seen by Reuters.

"The state enjoys plenary powers of regulation, control and restriction in grant of a licence," the Delhi authorities said in the document, adding that giving a licence to Pernod would 'expose the regulatory

system to risk'.

Pernod said in a statement that 'it continues to believe it should be permitted to operate in Delhi' and is pursuing appropriate legal avenues.

The Delhi government did not respond to queries from Reuters.

Pernod has been accused of supporting some Delhi retailers for licence bids in 2021 in return for ensuring 35% of stocks in their shops would be Pernod's. Last week, India's antitrust regulator launched a new investigation to look into similar allegations.

Pernod has repeatedly argued its being wrongly penalised, and it has not been convicted in any case so far.

Pernod competes with Diageo, Suntory and William Grant in India's \$65 billion alcohol market. It has 1,650 employees and 24 production sites.

"Delhi serves as a major commercial hub, is the venue for top alcohol brand launch events, and gets a lot of tourists who prefer premium spirits," said Amulya Pandit, a senior consultant at Euromonitor specializing in the drinks market. —REUTERS

# TVS Motor to step up capacity push after robust March qtr

NARAYANAN V  
Chennai, May 13

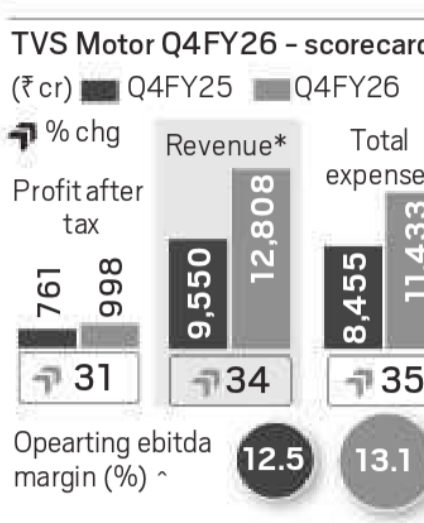

**TVS MOTOR COMPANY'S** standalone net profit rose 31% year-on-year to ₹998 crore in the fourth quarter, driven by record quarterly revenue and its highest-ever quarterly sales across vehicle categories.

The record sales performance has also prompted the Chennai-based automaker to chart out an aggressive capacity expansion plan to support future growth.

"Immediately, we are looking at increasing the capacity by another 1.5 million. We have to add significant capacity in the next 12 months," TVS Motor CEO KN Radhakrishnan said during the company's Q4 and FY26 earnings call.

The expansion plan comes after the company's annual

**GROWTH DRIVE**

sales touched a record 5.9 million units in FY26, up from 4.7 million units in the previous fiscal. The company wants to take its total capacity to 8.3 million from about 7 million units in FY26.

"Possibly for FY28 and FY29, we are also thinking about what kind of capacity

additions we need to add," Radhakrishnan said.

Standalone revenue from operations climbed to an all-time high of ₹12,808 crore in Q4FY26, surpassing Bloomberg estimate of ₹12,680 crore. However, standalone net profit missed estimates of ₹1,011 crore.

# DLF Q4 profit down 1% on lower income

**REALTY MAJOR DLF** on Wednesday reported a 1% decline in consolidated net profit to ₹1,268.56 crore in the March quarter on lower income while its sales bookings fell 5% to ₹20,143 crore in the last fiscal year.

Its net profit stood at ₹1,282.20 crore in the year-ago period.

Total income also fell to ₹2,093.82 crore in the fourth quarter of FY26 from ₹3,347.77 crore in the corresponding period of the preceding year, according to a regulatory filing.

During FY26, the company's profit rose to ₹4,414.68 crore from ₹4,366.82 crore in the preceding year.

Total income increased to ₹9,816.04 crore in the last fiscal year from ₹8,995.89 crore in the 2024-25 financial year. —PTI

# Uber to set up first India data centre with Adani

FE BUREAU  
New Delhi, May 13

**GLOBAL RIDE-HAILING MAJOR Uber** Technologies is set to establish its first data centre in India in partnership with Adani Group, marking a fresh step in the company's effort to deepen its technology and engineering presence in one of its fastest-growing markets.

The new facility is expected to become operational later this year, Uber CEO Dara Khosrowshahi said on Wednesday after meeting Adani Group chairman Gautam Adani in Ahmedabad.

Posting on social media platform X, Khosrowshahi said the two companies were

Uber CEO Dara Khosrowshahi with Adani Group Chairman Gautam Adani in Ahmedabad on Wednesday

building on their existing partnership. "As India fast emerges as a leading innovation hub for Uber, we are set-

ting up our first data centre in the country with the Adani Group to test and deploy our tech," he wrote.

The quantum and value of the investment were not immediately disclosed.

The move comes at a time when global technology firms are increasingly localising data storage and computing infrastructure in India amid rising digital adoption, growth in artificial intelligence workloads and tighter regulatory scrutiny around data governance.

Uber already runs large engineering and technology teams out of India, with centres in Bengaluru and Hyderabad.

For the Adani Group, the partnership adds to its growing ambitions in digital infrastructure, including data centres and cloud services.

# Kia launches BaaS financing model for EVs

AKBAR MERCHANT  
Mumbai, May 13

**KIA INDIA HAS** introduced a Battery-as-a-Service (BaaS) financing programme with the MY26 Kia Carens Clavis EV, making it the company's first electric vehicle in India to be offered with such a model.

The programme is aimed at reducing the upfront cost of EV ownership by allowing customers to finance the vehicle body and battery separately. Under the dual-loan structure, buyers can opt for a standard vehicle loan for the chassis while paying separately for

battery usage through a subscription-based model.

Automakers such as Maruti Suzuki, Tata Motors and MG Motor India already offer similar financing models for EVs to lower acquisition costs and attract more

buyers into showrooms.

For the standard variant of the Carens Clavis EV, priced at ₹17.99 lakh (ex-showroom), the chassis loan amount stands at ₹12.84 lakh with EMIs starting from ₹26,650. The extended-range variant, priced at ₹21.99 lakh (ex-showroom), comes with a chassis loan value of ₹15.94 lakh and EMIs starting at ₹33,099.

Kia said ownership costs under the BaaS programme start at ₹51,520, while battery subscription charges have been fixed at ₹3.3 per kilometre for both battery pack options. The Carens

Clavis EV continues to be offered with 42kWh and 51.4kWh battery packs.

The financing programme has been launched in partnership with lenders including ICICI Bank, HDFC Bank, Axis Bank, Kotak Mahindra Bank and Bajaj Finserv.

According to Kia India, the tenure for vehicle financing extends up to 60 months, while battery financing can go up to 96 months.

The company said the model has been designed to improve affordability and provide greater flexibility to EV buyers.
